## CHAS. FOSTER FAILS.

The Ex-Secretary of the Treasury in Financial Straits.

### FORCED TO AN ASSIGNMENT.

The Crash a Disastrous One, as With Him Go Down Several Big Interests—Mr. Foster Makes a Statement to the Public. Devotion to Politics and Efforts to Boom Fostoria the Reasons He Assigns For His Financial Trouble.

FOSTORIA, O., May 27.—Fostoria was shaken from center to circumference yesterday by the announcement, which spread with the rapidity of wildfire, that Governor Charles Foster had made an assignment. Every man who knows what a public-spirited, enterprising citizen Mr. Foster is, knew in an instant that this meant the downfall of some of Fostoria's most prominent institutions, which he had started and upheld for many years.

The report proved too true, for at an early hour Attorney Scott of Toledo filed the papers of assignment of the banking house of Foster & Company, the wholesale house of Davis & Foster and Charles Foster individually, with J. B. Gornley, president of the First National bank of Bucyrus as assignee. The Mambourg-Crocker Calcedine Glass company, the brass and iron works and the Fostoria Light and Power company are also involved, and will all be in the hands of an assignee within a few hours. Just now everything is in a chaotic condition, and it is almost impossible to get facts or figures, or to make any estimate of the probable outcome of this most deplorable affair.

The bank of Foster & Co. carried several hundred thousand dollars in deposits. The bank has negotiated the loans for the brass works and the glass houses. To do this the bank had to give its own indorsement, and it was this fact that caused the crash. The great stringency in the money market compelled all banks holding the governor's paper to ask payment, and having too much paper out he was unable to carry the load.

The extent of the failure is so great that its significance can scarcely be realized. A half dozen prominent industries will go to the walls, and hundreds of people will be thrown out of employment. The loss to business men who were depositors in Foster & Company's bank is one deplorable feature of the crash, but it is confidently believed that none of them will suffer to any very great extent.

The loss to Fostoria is a great one and one that will require considerable time to recover from, but great as it is the regret on this account in no way lessens the regret and sympathy expressed for the secretary. It is generally conceded that his unstinted generosity and phenomenal public spirit have been the indirect cause of his financial downfall, as he was ever ready to lend a helping hand to the poor and worthy.

The assignment of Davis & Foster, the wholesale grocers, will probably be the direct cause of the failure of a number of grocery concerns throughout the country. It is said that the firm has \$125,000 unpaid accounts and notes due it.

The deposits of the bank at the time of its last statement were about \$175,000, but it is impossible to ascertain what they are at the present time as the cashier of the company, Mr. J. E. Wilkinson, is reticent and prefers to have the assignee make a public statement.

Mr. Wilkinson is also treasurer of the Fostoria school district. The board of education had \$13,000 in cash on hand, and as Messrs. Davis and Foster are his bondsmen it is probable that the loss in this case will be considerable.

The assignee is J. B. Gornley, a prominent banker of Bucyrus, and a warm friend of Mr. Foster's. The liabilities are given out by Mr. Foster as being \$600,000, and the assets as about the same.

A run was made on the Mechanics' Savings bank as soon as its doors were opened, but with \$80,000 in currency piled upon the cashier's desk, the demands of all frightened depositors were promptly met and none turned away.

The following statement has been made by Mr. Foster:

"Words can not express the deep distress and humiliation I feel. If I could bear all the burden that my failure will entail I should feel a sense of relief. It is no consolation to look back over a business life of 45 years which has gained for me a position of confidence that has rarely been achieved, to know that I have aided hundreds of people to maintain an honorable standing and to gain a competency and some a large degree of wealth.

"I know that now I have by my failure injured many people. But I hope none are to be ruined. When I returned from Washington I knew that my indorsements for the window glass company and the brass and iron works company were very large—so large, in fact, as to induce me to fear that I would have to suspend at that time. I, however, prevailed upon a friend to give me a large amount of help and then felt confident that I could maintain myself and finally come out all right.

"These concerns owed more than I then supposed, and to add to my misfortunes the affairs of the Foster Light and Power company of which I am a large stockholder and indorser, proved to be in bad shape financially. Then came the unfortunate financial condition of the country. Everyone I owed wanted my money and no one would lend. Payments for glass instead of being cash were made in paper. Sales in fact came to a standstill. I struggled, seeking every possible means to tide over the situation until I am compelled to assign. I did not give up

the struggle until today, May 26. It will take the assignee some time to make up the schedule of my affairs."

"In my affairs I include Foster & Co., the Crocker, Mambourg and Calcedine Glass companies, the brass and iron works and the Fostoria Light and Power company. I can see plainly that in settling my affairs through the courts, thus compelling my assets to be reduced to cash, large sacrifices will be made. This being so I can not give encouragement that my debts will be paid in full. The other concerns with which I am connected are all on a sound basis except possibly Davis & Foster. They have a surplus of \$80,000 and ought to pay in full. My failure must doubtless cause a shock to the interests of the city, from which I am sure it will speedily recover.

"I believe our business concerns are in a sound and healthy condition, and the two banks are especially strong. Depositors with them need not feel any alarm. I sold my two blocks and four parcels of land to Mr. Harkness when I arranged for a large sum of money, and have turned over to him my stock in Cunningham & Company, and the Stave and Barrel company. I have given mortgages to two women who relied upon me to invest their money, it being about all the property they have, amounting to about \$4,000.

"It is only just to myself to say that two things have caused my downfall, one was neglect of business occasioned by my devotion to politics and the other to an overzealous desire to build Fostoria. I do not know that at my time of life I ought to indulge in the hope of being able to repair my fortune and pay my debts; that I shall try will be the one end for which I shall live. In this hour of unspeakable distress, I only crave the generous judgment of the public—a public that will be deeply shocked over the financial downfall of a man who has enjoyed their confidence to a remarkable degree.

"The aggregate amount of the liabilities, including bank deposits, my individual debts, the three glass companies, the brass and iron work companies, the Light and Power company, will be about \$600,000. The assets on paper will more than cover the liabilities. Mr. Wilkinson has secured the school fund and the building and loan association funds against loss."

### Wall Street Not Surprised.

NEW YORK, May 27.—The Foster Banking company of Fostoria, O., according to the last issue of the Bankers' Almanac, has a capital of only \$40,000, a surplus of \$2,000 and undivided profits of \$9,000.

The New York correspondent of the Foster Banking company is the National Shoe and Leather bank of 271 Broadway.

George F. Baker, president of the First National bank, said to a reporter that he was surprised to hear Foster & Company's failure, although he knew that they had not as much money as they wanted. They had not borrowed very extensively of the First National bank, and the bank would not lose anything by the failure.

At the Chase National bank it was said that no notice had been received of the failure. No astonishment was expressed by the well informed bankers in Wall Street over the failure of Foster & Company.

In Bradstreets, Foster & Company are put down as having a capital of from \$500,000 to \$1,000,000, but their credit is only rated by that agency as second class.

### The News at Columbus.

COLUMBUS, O., May 27.—Ex-Governor Foster's residence here for eight years made him almost as well known in Columbus as in Fostoria, and news of his failure is not only a great surprise, but a cause of general sorrow, that is not confined to official circles.

When Mr. Foster declined the appointment as state labor arbitrator, he stated in the letter that his business interests were in such condition that all his time would be demanded by them. The governor then supposed that this was due to his long absence in Washington.

Mr. Foster's only interest in Columbus, as far as known, is stock in The Sontagust, a German paper, whose editor, Leo Hirsch, is the state supervisor of printing. It was through Foster's influence that Hirsch was appointed. Secretary Boyle said that Mr. Foster was in no way involved in Governor McKinley's financial troubles.

### Surprised in Washington.

WASHINGTON, May 27.—The news of the assignment of the Charles Foster Banking company at Fostoria was received here with great surprise by the public, but there were some close friends of the ex-secretary of the treasury who had heard rumors for the past week of financial troubles in the private bank at Fostoria.

Comptroller of the Currency Eckels said that nothing was known in his department because the banking company was not a national bank and under his control. He had the condition of the national bank of Fostoria examined, and the report of May 4 showed that it was in a remarkably healthy condition, and its reserve amounted to 35 per cent, when the legal requirement was only 15 per cent.

It is stated here that the assignment will affect Senator Brice to some extent.

### Forty Firms Involved.

TIFFIN, May 27.—The Foster failure has practically paralyzed everybody and everything in Tiffin, and no other topic is discussed. Various theories are afloat, but the one that obtains here, and to which business men and Mr. Foster's personal friends give credence, is that he was compelled to take the step to rid himself of the barnacles that have been clinging to him.

As is well known, Mr. Foster is financially interested in not less than 40 business houses and manufactories, all of

them controlled by his associates. Many of these have been losing money, and his partners, relying upon his leniency, have been involving him more and more. It is believed here that he will pay dollar for dollar of his indebtedness.

### A Stupendous Crash.

NEW YORK, May 27.—The Mercantile Financial Trustees' Agency company has suspended payment. The nominal capital of the concern exceeds \$20,000,000, and the British deposits in the institution amount to \$1,500,000.

### SWEEP BY A STORM.

Great Destruction Done in the Missouri and Mississippi Valleys.

St. LOUIS, May 27.—The Missouri and Mississippi valleys were visited by one of the most terrific thunder storms that has swept over this section since back in the 50's. The storm extended as far west as Kansas City and as far north as Iowa. The average rainfall reported by the weather bureau is 1.04, and the rain is still falling in torrents. Considerable damage has been caused in the city by cellars being inundated. During the heavy gale the telephone, telegraph and electric wires were badly damaged, and communication is seriously interrupted.

From reports received from points up the river it is expected that the Mississippi river will rise five feet within the next four days. This will make a serious state of affairs along the levees below here and serious apprehension is felt for the safety of people at Helena, Arkansas City and Vicksburg.

Telegrams from Miko, Mo., say that north of that city Henry McCue was fatally injured by a barn being blown down on him.

A house blew down and killed John Willis near Laddonia.

On Young's creek, north of Mexico, Mo., the storm was most severe, but no lives were lost.

The new bank building and several other houses were blown down at Matensburg.

The storm passed through Crystal City, doing great damage to property. Six houses, one mile south of there on Selma Hills were totally destroyed, the occupants barely escaping with their lives. A portion of the roof of one of the packing rooms at the glassworks was blown off.

### MURDERED BY REDSKINS.

Two White Men Reported Killed by Indians.

SPOKANE, Wash., May 27.—A report reached here from the Colville Indian reservation that a party of Indians had attacked the government surveying party there and driven them from the reservation, killing two whites. The Indians are said to be enraged because the government failed to pay them for the lands about to be confiscated.

Engineer Huber, part owner of the surveying outfit, started at once for the reservation to verify the report. The surveying party consisted of 20 men in charge of Engineer Maxwell and left Spokane for the reservation about three weeks ago. Captain Carrell, a mining expert, was the first to give the information last night and reported that half breeds had told the story as above.

### Unsuccessful Attempt to Rob a Train.

St. LOUIS, May 27.—Two men made an unsuccessful attempt to rob the express car on the southbound Mobile and Ohio railway train 15 miles south of here. The men climbed on the engine near Forest Lawn, Ill., and, with cocked revolvers, ordered the engineer not to stop at that station. One of the robbers then went to the expresscar and called to the messenger to open the door. The messenger refused, and in the meantime the conductor stopped the train by applying the airbrakes from the interior of the coach. The robbers then jumped from the train and escaped.

### Protected Her Property.

ROCHESTER, May 27.—Mrs. Thomas Kervin four months ago secured a permanent injunction against the Rochester Street Railway company, preventing them from crossing her land with the trolley cars. The limit expired, and the woman built a fence across the track, and held up the trains all day from passing.

### Delaying Departure.

LONDON, May 27.—A report from Shanghai says the departure of a new Chinese minister to Washington has been deferred, pending the reply of a question asked the United States regarding the Geary act.

### CONDENSED NEWS.

Short Items From Various Parts of the Country.

There are two cases of smallpox at Alexandria, Ind.

Robert Alexander and Louis and Howard Pugh, negro boys, were hanged at Tuskegee, Ala., for criminal assault. Each declared a readiness to die, saying they were going straight to heaven.

John Dunfield and wife of Mount Eber, Ky., were found dead in bed. They had taken morphine in considerable quantities.

Frank Hickey, the alleged murderer of John M. Clayton, at Little Rock, Ark., has been released on \$1,000 bail. The evidence against him is considered very slight and it is not expected he will be convicted.

The total number of fourth class postmasters appointed Friday was 53, of whom 57 were to fill vacancies caused by resignations and deaths.

Edward Newel, agent of the Domestic Machine company, at Buffalo, has made a general assignment, with liabilities between \$40,000 and \$50,000 and assets about the same.

Isaac Pendergraft, 35, living in Upper Kinniconic, Ky., died Friday from the effects of a cockle bur he accidentally sucked down his windpipe last fall.

### TRADE IMPROVING.

So Says R. G. Dun & Company's Weekly Review.

NEW YORK, May 27.—R. G. Dun & Company's weekly review of trade says: In two ways there has been quite a general improvement during the past week. Better weather throughout most of the country has stimulated retail trade, and the large distribution of goods has made trade more active.

Monetary anxieties have curiously abated. Yet the actual conditions do not seem to have changed materially. Gold is still going out, and \$2,000,000 more are to be shipped today. The treasury reserve is again reduced below the \$100,000,000 limit. The large demand for rediscunts and advances by western and southern banks, though considerably abated, has been greater than eastern banks could wholly meet. There is no definite improvement in financial affairs abroad, and the prospect of continued outgo of gold for some time to come has not altered.

Speculative markets show comparatively little activity. Stocks have fallen off to some extent from the rapid recovery of last week, the average being about \$1 per share lower than a week ago. Wheat and corn are both at just about the same price as a week ago, although western receipts of wheat in four days have been 1,902,108 bushels, and Atlantic exports 1,036,597 bushels, and corn receipts have been very large with insignificant exports. Mess pork is 25 cents higher, but other hog products a shade lower, and while coffee advanced half a cent, oil declines a cent. A natural decline is seen in dairy products and potatoes. Cotton is also an eighth lower, although the receipts have been smaller and the exports larger than for the same week last year, but the enormous stocks in sight are not diminishing more than is usual at this season.

Boston reports improvement with better weather, active retail and better jobbing trade in dry goods, though collections are short, and steady market for staple cottons, the decline having been checked, and woollens rather quiet though more demand from clothiers is seen, their trade having improved.

The outlook for pig iron is better at Pittsburg, and some finished products are in better demand but prices very low.

At Cincinnati stringency lessens; retail trade improves with the weather.

At Cleveland rolled products are in large demand, but prices are weak, collections poor and money close.

Indianapolis reports money tight.

At Detroit prospects are less bright than last year, but collections have somewhat improved.

Chicago reports improvement with better weather, which favors the farmers, though collections are still slow and bank accommodations sparing.

At Milwaukee manufacturers are busy and the jobbing trade greater than a year ago, but money is close.

At Minneapolis the financial flurry has abated, jobbing trade and collections are fair, with a good lumber trade but small sales of flour.

St. Paul reports seedling mostly completed, fair jobbing trade but slow collections.

St. Louis notes steady and satisfactory jobbing and fair collections. Bankers are extremely conservative and much money has gone out to other western cities.

At St. Joseph the grocery trade is good and dry goods in fair demand; at Omaha the dry goods, groceries and hardware trade are good, but at Denver bad weather makes trade quiet.

Business at Nashville is improving and also at Savannah, but at other points at the south business is quiet and at nearly all, collections are slow and money somewhat close. Mobile reports large shipment of early vegetables, and New Orleans a bright outlook in building trades, though the breaking of levees will seriously affect northern Louisiana.

Imports are still large, for three weeks in May exceeding last year's by nearly \$6,000,000, but exports have somewhat increased and for three weeks show a slight gain. Money on call is cheap and abundant, but loans on time for commercial needs are yet made with some difficulty and sparingly.

The failures for the last seven days number for the United States 259, Canada 14, total 273, as compared with 261 last week, 280 the week previous and 198 for the corresponding week of last year.

### WHO KILLED THE KOESTERS?

Anna Wagner Laughs Defiantly Before the Police Judge.

INDIANAPOLIS, May 27.—In the coop adjoining the police court, waiting for her name to be reached on the list of offenders before the police judge, was Anna Wagner, sullen, taciturn and defiant, an unprepossessing woman, and melancholy looking.

She denied all responsibility for the five deaths in the Koester family, for which crime she is under arrest. She speaks of the charge against her with a certain contempt and laughs sarcastically when Koester, whose love she is alleged to try to win, is mentioned. She stated again that the poison she had purchased was to kill mice. The woman speaks in broken English and does not seem to realize the serious aspect of the case.

The calamities of the Koesters family continue. Five of them are dead. Some of them or all of them murdered, and today Alphonse, the 4-year-old son, lies at death's door, with a fractured skull, caused by being thrown from his pony, shortly after the Wagner woman had been arrested. Only one child, a baby, now remains and Charles Koester.

COLUMBUS, Ind., May 27.—The 15-year-old son of Congressman George W. Cooper was bitten by a mad dog at the family home in this city. The boy is suffering intensely. A madstone will be applied.

## QUESTION DECIDED.

Briggs to Be Tried by the General Assembly.

### IT WILL BEGIN AT ONCE.

The Appeal of the New York Synod Sustained by a Vote of 409 Yeas to 145 Nays—A Night Session Held and Committee Reports Considered—Prospects of a Long Session of the General Assembly.

WASHINGTON, May 27.—The Presbyterian general assembly spent all the morning hour in discussing the question, "Shall the appeal be sustained?" with the understanding that an amendment shall be allowed and be first voted upon to remand the whole case to the synod. Speeches were limited to 10 minutes each. Each side was heard in turn. The judges and lawyers looked only at the technical points, while the ministers argued for the constitutional rights of Dr. Briggs.

At 12:25 the four hours' discussion on the question whether the appeal should be entertained being still in progress the general assembly took a recess until 2:30 p. m.

The first thing done upon the reassembling of the assembly was to determine to hold a night session for the purpose of further proceeding with the consideration of the Briggs case.

The discussion on the Briggs question was then continued until the four hours were up.

Judge Parnell of Baltimore then offered his motion to remand the case to the New York synod. This was defeated by a viva voce vote and again by a rising vote. The question then recurring on the resolution of the judicial committee, that the appeal be entertained, the yeas and nays were demanded and the roll call began.

It was taken amid an almost painful silence, and while it was being called Moderator Craig yielded the chair to ex-Moderator William C. Roberts, D.D., and himself voted aye.

When the clerk had finished the call of the synod of New York Professor Briggs seemed relieved, and rose from his half-leaning position over Professor Brown to the upright pose he had maintained throughout the trying ordeal.

The result on the motion to entertain the appeal was announced by Dr. Craig as follows: Yeas, 409; nays, 145.

On motion of Dr. Young the judicial committee was instructed to prepare a program for procedure in the trial of the appeal and the assembly decided to proceed with the trial at once.

At 5 p. m. the assembly adjourned until 8 o'clock for the consideration of administrative business.

The assembly was in session until 10 o'clock considering reports of committees on the boards of church erection, publication and Sunday school work. The reports of both committees were adopted. The present members of the board of publication and Sunday school work were re-elected.

The brethren are beginning to talk of a month or more's stay in Washington. The Briggs trial, the matter of revision, the amendment of the book of discipline, and other important matters, are enough to occupy the assembly for more than a month. It does not seem possible to finish the Briggs case sooner than the first of week after next.

By the rules of the book of discipline no one can take part and vote in the trial who is not present at each session. This involves calling the roll at the beginning and close of the session. This itself will consume at least one hour each session, as there are 580 members who must be called and answer to their names twice. Then, on the final verdict, each one has the right to express his opinion. This itself may consume a day or two. It is beginning to be apparent that the assembly is too unwieldy a body to deal with a case like this.

There are many who will be compelled to go home before the conclusion of the trial, so that the number who will pass upon the case will be much less than the number now present.

 making the resolution a special order for  
 June 12 was finally adopted.  
 There are a number of important bills  
 pending, and the General Assembly will  
 not be ready to adjourn for a month.  
 Representative Carroll, of Louisville,  
 introduced a bill which provides that dis-  
 count of bills of exchange drawn in good

## **BURGLARS JAILED.**

**Captain Fitzgerald Captures the  
 Thieves Who Robbed Gaither's  
 Store at Marshall Station.**

Mr. Thomas Gaither's store at Marsh-  
 all Station was burglarized last Sunday  
 night, the thieves securing about \$200  
 worth of goods, principally clothing and  
 shoes. An account of the robbery has  
 been given in the BULLETIN, and it was  
 added that there was a clue to the guilty  
 parties.  
 Yesterday Captain Fitzgerald over-  
 hauled the burglars and they are now in  
 jail awaiting trial. They are William  
 Jones and George Jones, colored. They  
 are brothers, and each has served a term  
 in the Frankfort penitentiary, having  
 been sent up from Bourbon County.

Chief of Police Fitzgerald has been on  
 their trail for several days, and has found  
 where they sold part of the stolen prop-  
 erty.  
 They disposed of about \$15 worth of  
 the goods to Robert Chain, of Stevens P.  
 O., Adams County. After getting rid of  
 the stolen property it is said they went  
 to Manchester and purchased other goods  
 with the money. Leaving Manchester  
 they came down on the Silver Wave and  
 were landed above Aberdeen. From  
 there they crossed the river, circled  
 round this city, and boarding the M. P.  
 Wells at the distilleries below town pro-  
 ceeded to Ripley, thence to Georgetown  
 and then back to Higginsport, where  
 Captain Fitzgerald captured them yester-  
 day. They were wearing some of the  
 stolen goods when captured. In a mem-  
 orandum book found on one of them  
 there were entries showing where they  
 had sold part of the goods.

One of them is a one-armed fellow, and  
 was ordered out of Maysville a week or  
 so ago by Captain Fitzgerald.  
 The accused were taken before Squire  
 Grant this morning, and their examining  
 trial set for next Monday afternoon at 2  
 o'clock. In default of \$500 bail each,  
 they were committed to jail.

## **City Council.**

At the adjourned meeting of City  
 Council Thursday night, the following  
 were granted permits: Dr. Samuel Pang-  
 burn, to erect two-story residence on  
 south side of Second street, Sixth ward;  
 R. M. Wallingford, two houses on Di-  
 eterich street; J. H. Myers, two-story resi-  
 dence on Forest avenue; Wm. Fitzgerald,  
 addition to property on East Third street.  
 The question of exempting the Visita-  
 tion Academy from taxation was referred  
 to Committee on Laws and Ordinances.

 The Pittsburg coal fleet was making  
 things lively on the river yesterday.  
 Says the Ashland News: "The com-  
 pletion of the Bay Brothers' new Ruth  
 will not affect the running of any of the  
 local boats, as she will in all probability  
 be entered at once in the trade from  
 Huntington to Charleston, and the only  
 change to result will be that of the Stan-  
 ley. The Georgia will remain in the local  
 run, and not be transferred to the trade  
 from Maysville to Cincinnati as stated in  
 several local papers."

## **JOHN ROBINSON'S EXPOSITION.**

**Notably Augmented For the Present  
 Tenting Season.**

Probably the most colossal as well as  
 the most nery adventure of the day is  
 that inaugurated this season by the man-  
 agement of John Robinson's show—a ven-  
 ture requiring an expenditure so enorm-  
 ous that a statement of the amount would  
 scarcely be credited by the general  
 reader. We allude to the production on  
 a scale of magnitude and opulent splen-  
 dor never preceded of the new biblical  
 spectacle of Solomon, his Temple and  
 the Queen of Sheba, a spectacle prolific  
 in grand scenic effect, impressive in pomp  
 and pageantry, realistic in its reproduc-  
 tions of the patriarchal era, sacred in its  
 biblical associations and entrancing in  
 its ballets, poses, marchings and group-  
 ings. The visit of the Queen of Sheba to  
 King Solomon's court, with her immense  
 and richly costumed retinue, the judg-  
 ment of Solomon, the grand processional  
 pageant to meet and welcome Sheba's  
 lovely Queen, the walls and city of Jeru-  
 salem, the inner court of Solomon's Tem-  
 ple, the sacred ark of the covenant, the  
 bewitching ballets of lovely girls and  
 myriad features that can not be given in  
 detail are the attractions this wondrous  
 spectacle presents. The show will ex-  
 hibit in Maysville Friday, June 16.

## HON. MATT WALTON.

### A Native of Mason Who Has Gone to the Front at Lexington—The Leader's Sketch.

Hon. Matt Walton, a native of Mason County, is winning fame and fortune at Lexington. The Leader recently gave a very complimentary sketch of him which will prove interesting to his many friends in Mason. It says: "Hon. Matt Walton was born in Mason County, this State. He is the eldest son John Hervey and Susan Isabella Walton, who are still residing at 'Walton Place,' near Germantown. Judge Walton was educated in the schools of Mason and Bracken counties and at the Kentucky University. He studied law under Hon. M. H. Owsley and B. M. Burdette, at Lancaster, where he resided from August, 1874, to April, 1881, when he removed to Lexington. He soon took a prominent position at the Garrard bar, and was Master Commissioner from 1877 to 1881, when he came here to reside.

"While a resident of the Eighth district he was one of the young and active leaders of the Democratic party, being Chairman of the Garrard County committee; was also a delegate to the Cincinnati convention in 1880. Since April, 1881, he has engaged in the active practice of law in this city, and is now the junior member of the firm of Beauchamp & Walton, one of our most prominent law firms.

"He has filled many positions of trust since he has been a resident of Lexington. He was for five years Judge of the Recorder's Court, being twice elected without opposition. He now holds no political office, but is a Commissioner for the Eastern Kentucky Lunatic Asylum, a director to the Phoenix National Bank and the Security Trust and Safety Vault Company. He is also attorney for several corporations, among which are the above mentioned, the Ashland Building and Saving Association, Loudon Park Building Association, etc. In addition to the practice of law, Judge Walton has been a successful operator in real estate in this city and other places."

Mrs. Ed. Nesbitt is quite ill.

A BROTHER of County Clerk Green of Robertson County is visiting him for the first time in forty-two years. The brother has been in California most of the time.

## IT WILL BE OPEN.

The World's Fair Can Be Seen on Sunday.

### NO WAY TO PREVENT IT.

The United States District Attorney Will Not Have Time to Get Out an Injunction—The Question of Awards Assuming Serious Proportions—Other News Gathered at the Great Columbian Exposition.

CHICAGO, May 27.—The world's fair will be open Sunday. At least that is what Commissioner Hundley of the judiciary committee of the national commission said, and as he is one of the three members who violently opposed Sunday opening his admission has double force.

WORKING ON CUT GLASS.

Commissioner Hundley made the statement after conferring with United States Attorney Mitchell concerning the injunction which the government will pray for to restrain the directors from opening the exposition gates on Sunday. "After considering the matter we have decided that the bill for an injunction can not be filed in time to close the fair next Sunday," said Mr. Hundley. "It is such an extensive affair that no lawyer on earth could prepare the petition within 24 hours. Therefore, as the bill can not be filed, we shall wait until next week. Yes, that means that the gates will be open next Sunday. It will do no harm just for one day."

"After all, when the bill is ready I very much doubt if a court can be found having the proper jurisdiction in the matter. It will be an extraordinary delicate thing to decide. There are so many interests involved—the rights of the state, the park commissioners, the national government's and the local directors—why it is one of the most complicated questions one could imagine. The police regulations and legislature's right of power in the matter, serve to complicate matters still more."

While not saying so positively the commissioner appeared to believe that the remarkable complexity of the question would eventually result in the matter dragging on until fall, and meanwhile in the absence of the injunction the exposition would be crowded with sightseers Sunday.

**Objecting to the Award System.**

The question of awards is assuming proportions. American exhibitors are now joining with the foreign commissioners in opposition to the system devised by Mr. Thacher and adopted by the national commission. So general is the revolt that unless some satisfactory arrangement is made soon there will apparently be few exhibits in Jackson park for the judges to pass upon. Most of them will be withdrawn from examination. The main objection to the Thacher system is that awards which consist of but one kind of medal are to be made by individuals and not by juries.

**National Commission Grievances.**

The national commission are up in arms against the department of admissions and the gatekeeper employed by Superintendent Tucker. Before the commission met yesterday there was a pretty exciting scene in the chamber. Members of the august body were relating their grievances and telling their individual experiences with the gatekeepers, guards and the officials of the department of admissions.

The tales were poured into the ear of Commissioner Massey because of his connection with the council of admission, and after listening to one experience after another he ejaculated: "This is outrageous."

T. C. Kuntz, commissioner from Minneapolis, was denied admission after he had shown the regulation bronze badge and presented his personal card to be dropped in the box. He was compelled to pay 50 cents to reach administration building. He was accompanied by G. F. Cumming, commissioner from Washington, who was also refused admittance at first, but after thinking the matter over the gatekeeper decided to let the commissioner pass in free.

Another victim who paid was General Edwards, alternate commissioner-at-large from Maine. The same objection was raised to his badge, the gatekeeper saying that their latest orders were to require a pass with a "spread eagle" bronze badge. The design of the commissioners' badges includes an eagle, but not of the "spread eagle" order and the gatekeeper was too ignorant to distinguish between the two.

#### No More Lunch Baskets.

The concessionaries who have restaurants on the Midway Plaisance are now suffering for the exorbitant prices demanded by the concerns which operated the only eating places in the fair grounds proper at the beginning of the exposition. Every other concession on the Plaisance has a restaurant attached, and the visitors have been in the habit of bringing their lunches into the places and partaking in sight of the concessionaries, even to spreading their refreshments on the restaurant tables.

This was too aggravating to suit the concessionaries, and the latest order given at the gates of the various attractions is not to admit visitors who

come with well-filled lunch baskets. If these people want to see the cosmopolitan shows, they must eat before they enter. Even the baskets are an eye-sore to the concessionaries, who see a fortune slipping from their grasp.
